

ADVANCED, INNOVATIVE AND COMPLETELY WESTERN STAR.

The 57X is both new and totally proven. Built on a platform that has been extensively tested over millions of miles in every kind of challenging condition, the 57X has lived up to the expectations of being a Western Star X-Series truck. The 57X represents the next generation of the premium highway truck, engineered to maximize efficiency, safety, dependability and uptime, with features that provide drivers with a comfortable home away from home.
